Manifold Flow Meters

- Displays overall total volume & batch total volume
- Flow rate allows for Gallons or Liters Per Minute
- The display reads 6 digits for Rate, 8 digits for Total and 1 decimal place reading in tenths
- Magnetic style meter with stainless steel electrodes
- Self calibrating meter
- Measures water and most conductive liquids
- Easy to change six (6) AA batteries
- No moving parts to fail during use
- Glass-reinforced polypropylene
- Temperature range from 0°F to 150°F
- Accuracy is 99% from 2 to 110 GPM for 1" and 99% from 30 to 300 GPM for 2"
- There are 3 photoeyes located on the face of the flowmeter
- Works best with a full product hose

Note: These are not push buttons, to activate you must hold your finger over the photoeye for 2-4 seconds.

DP-3000E

\$195.00

- Moisture-sealed construction
- Designed for durability
- Easy calibration
- Versatile mounting capabilities
- Meter accuracy $\pm 0.5\%$

DESCRIPTION:

DURAMETER™ features a moisture-sealed construction so the electronic circuit is impervious to moisture. DURAMETER™ is designed for durability and can be mounted for in-line flow, or plumbed at the pump. DURAMETER™ is easy to operate and calibrate with menu driven software. The main screen provides the amount dispensed, a battery life indicator, tracks batches, and inventory totals. DURAMETER™ has a backlight for low light conditions, is battery operated with two AAA batteries, and has an accuracy of $\pm 0.5\%$. DURAMETER™ features a 2 year warranty.

DEF-2012

\$334.17

DP-4012E

\$375.00

- For Use With Agricultural Chemicals
- Ability To Handle Low and High Viscosity Liquids
- Pumping Speeds of 12-15 GPM
- Available as: 12 Volt DC Motor or 110 Volt AC Motor
- 20 Foot Cable with Alligator Clips and In-Line Fuse
- Self Priming Diaphragm Pump

DESCRIPTION:

The **DURA-PUMP™ DP-4012E** is self priming, can be run dry without damage, has an internal bypass, and is easily field repairable. The **DURA-PUMP™** suction port is configured with a 2" Male NPT X 1" Female NPT for easy plumbing capabilities. The discharge port is a 1" Female NPT. The **DURA-PUMP™** features a 2 year warranty.

DPQM-4312E

\$759.00

- For Use With Agricultural Chemicals
- Ability To Handle Low and High Viscosity Liquids
- Pumping Speeds of 12-15 GPM
- Available as: 12 Volt DC Motor or 110 Volt AC Motor
- 20 Foot Cable with Alligator Clips and In-Line Fuse
- Self Priming Diaphragm Pump
- Versatile Pump Mounting Capabilities

DESCRIPTION:

The **DURA-PUMP™ DPQM-4312E** Quick-Caddy Frame Assembly provides the ability to quickly attach the pump system to the frame of the IBC/cage tank. The system includes a telescoping down tube for versatility, a 1" x 12' EPDM discharge hose, a 1" x 5' EPDM suction hose, with hose barbs and clamps, a ball valve nozzle and **DURAMETER™**. The pump is self priming, can be run dry without damage, has an internal bypass, and is easily field repairable. The **DURAMETER™** is a moisture-sealed construction designed to be mounted for in-line flow, or plumbed at the pump. The **DURAMETER™** is easy to calibrate with an accuracy of $\pm 0.5\%$. The **DURA-PUMP™** and **DURAMETER™** feature a 2 year warranty.

DPEM-4312E

\$690.00

- For Use With Agricultural Chemicals
- Ability To Handle Low and High Viscosity Liquids
- Pumping Speeds of 12-15 GPM
- Available as: 12 Volt DC Motor or 110 Volt AC Motor
- 20 Foot Cable with Alligator Clips and In-Line Fuse
- Self Priming Diaphragm Pump

DESCRIPTION:

The **DURA-PUMP™ DPEM-4312E** Easy-Caddy Frame Assembly provides the ability to quickly attach the pump system to the frame of the IBC/cage tank. The system includes a 1" x 12' EPDM discharge hose, a 1" x 18" EPDM suction hose, a 2" cam lock with hose barbs and clamps, a ball valve nozzle and **DURAMETER™**. The pump is self priming, can be run dry without damage, has an internal bypass, and is easily field repairable. The **DURAMETER™** is a moisture-sealed construction designed to be mounted for in-line flow, or plumbed at the pump. The **DURAMETER™** is easy to calibrate with an accuracy of $\pm 0.5\%$. The **DURA-PUMP™** and **DURAMETER™** features a 2 year warranty.

- » **Trimble - EZ Boom & Field IQ**

**Systems Starting
@ \$2,595.00**

ENDEAVOR

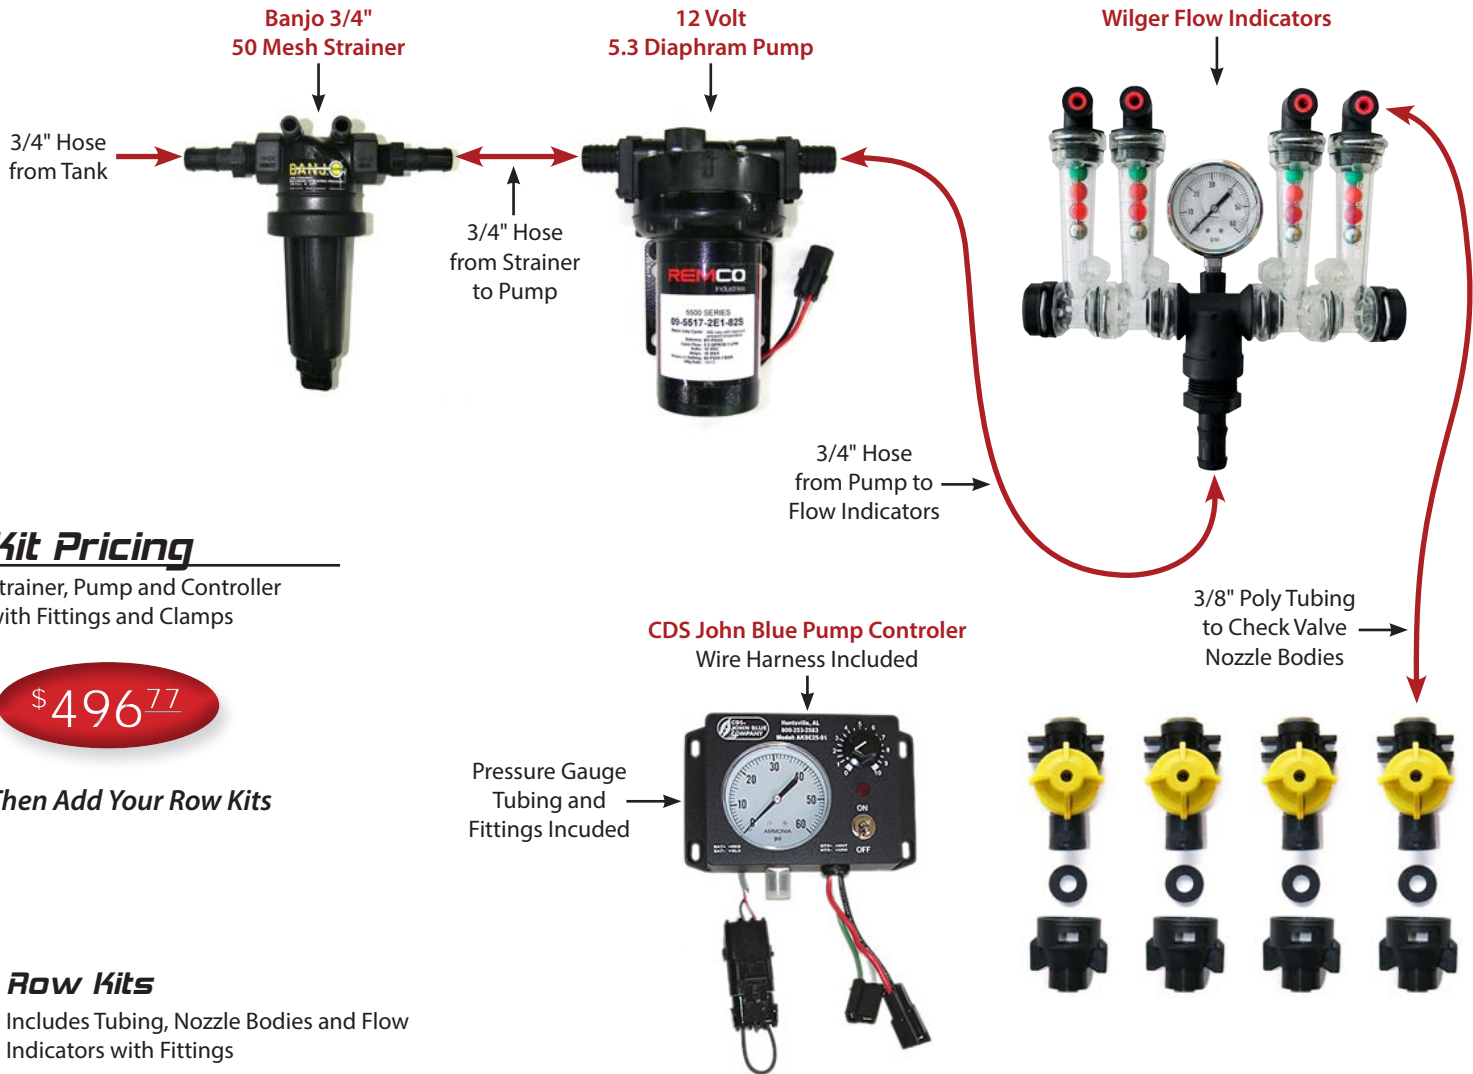

The ENDEAVOR fertilizer controller automatically controls 12 volt pumps applying liquid fertilizer and other at plant in furrow treatments. It's capable of controlling up to 10 sections and can be used with any swath control system to automatically shut on/off sections. The ENDEAVOR can be controlled by many existing third party controllers such as John Deere GS2/GS3, Ag Leader Integra/Insight, Trimble EZ Boom/Field IQ, Case Pro600/700, and Raven 440/450. Microtrak 3, 5, and 7 section consoles will control the ENDEAVOR when third party controllers are not being used.

The ENDEAVOR comes pre-assembled, plumbed, and wired on a slim profile mounting stand for simple installation. Wilger flow indicators with mounting stand included allows you to monitor flow to each row while low pressure diaphragm check valves keep all fertilizer lines fully charged. The ENDEAVOR can be configured with multiple size pumps to fit grower's demands. Application rates from 1 to 8 gallons per acre are achievable. The ENDEAVOR comes with a 1 year warranty on all components, and KZ section valves will be warranted for 2 years.

Simple Low Cost Planter Fertilizer Kits

Apply starter fertilizer as you plant with these simple and affordable kits. Kits include the items below.

Kit Pricing

Strainer, Pump and Controller with Fittings and Clamps

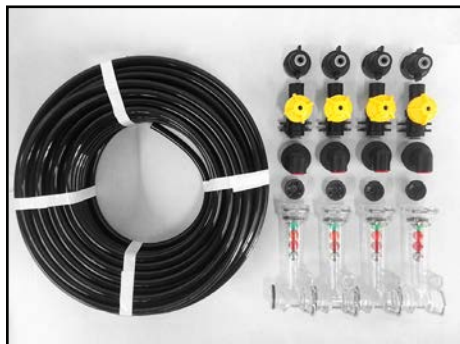

\$496⁷⁷

ISOBUS Product Control

Simply improving your position.SM

-Use your existing ISO compliant monitor to run Raven hardware

-Raven ISO allows you to use you existing cab monitor to run Raven hardware.

The Raven ISOBUS control system is designed to add liquid, granular or injection control capabilities to ISOBUS virtual terminals. Adding the Raven ISOBUS product will allow a machine operator to monitor and control a Raven product control system directly from a virtual terminal (VT) display.

NEW Raven ISO Product Control

Raven ISO can currently control the following systems:

- Liquid System
- Granular System
- AccuFlow NH3 System
- SideKick Pro Injection

Currently Supported VT's are:

- John Deere 2630
- Case IH Pro 700
- New Holland IntelliView 4
- Ag Leader Integra
- Raven Viper 4

- All Steel Double O-Ring Liquid Lock Swivel
- Manual Clutch Lockout for Easy Pull-Out

Every Super Reel we make comes standard with an all steel Double O-ring Liquid Lock Swivel. After about 8 years in production, these swivels are proving themselves to be very dependable. We also offer Stainless Steel Swivels as an upgrade to the 2" or 3" model.
